Product Description

Argo XTV Aurora 950

LEAVE A MESSAGE. YOU'RE OFF THE GRID.

Make the most out of your two or three weeks of vacation. It starts in the open air of the outdoors. Breathe it all in and take advantage of the time you get with the ones who share your love of riding.

The 2024 amphibious Aurora 950 will do all the work. Aurora is the premium XTV platform for ARGO with a massive 950 V-Twin engine that gives you the high-performance power to go far away from your demanding job. With its Instant Torque Clutch (ITC) technology and the Admiral transmission with ARGO Progressive Steering (APS), it will feel like the easy, stress-free vacation you deserve. And desire. Block off your calendar, and go hit the trails. Check your voicemail later.
