Product Description

Argo XTV Frontier 700 8x8

GO EXPLORE. CIVILIZATION IS OVERRATED.

If you go past Nowhere and take a left at the Boondocks, you'll arrive in that awe-inspiring destination called Way Out There. It's populated with nothing but streams and prairies, cliffs and big skies, acres of majestic trees and other amazing natural spectacles.

The ARGO amphibious Frontier 700 8x8 is the perfect guide for your refreshing journey with its VX 700 EFI V-Twin engine. Whether you're hunting Big Tom the Turkey, seeking a secluded camping vista or just discovering what's over the hill, you'll find this 8x8 has the horsepower to get you anywhere. The difficult decision is whether you want to come back to civilization when you reach the elusive Timbuktu.
