Product Description

Argo XTV Magnum XF 500

NO QUIT. BECAUSE OUT HERE, THERE'S ALWAYS MORE TO DO.

When there are loads to haul, fields to work and trails to put behind you, there's simply no room for machines that don't cut the mustard. That's why grit and guts come factory issued. The Magnum XF XF 500 is built for superior on- and off-road performance and take quality to a whole new level.

This side-by-side features a dependable 443cc liquid-cooled 4-stroke EFI engine, push-button 2WD/4WD with front differential lock, and impressive ergonomics for both driver and rider. We invite you to come kick the tires on this rugged machine. Just don't be surprised if it kicks back.
