### Product Description

## Argo XTV Xplorer XRT 1000 LE

THE POWER OF THE WOW FACTOR.

A dinner over a pork chop and loaded baked potato won't bring you the excitement you're looking for with your significant other. Get guaranteed energy, fun and excitement by riding the new ARGO Xplorer XRT 1000 LE 2-up out in the wild. Fresh air in the lungs and the get-up-and-go performance of our 997cc liquid-cooled engine will bring out those ear-to-ear smiles. Plus, the XRT 1000 LE will impress anyone before you even hit the throttle with 26" Duro tires with aluminum wheels, handguards and premium painted plastic body panels.

If you can't get enough riding on those sun-soaked trails by day, experience a beautiful evening under the stars. Our dual hi/low beam headlights and taillights will keep you safe no matter when you ride. Now strap your gear on heavy-duty front and rear racks and watch what the wow factor can do to any relationship.
